

5TH ANNUAL
Bull Sale

MARCH 28, 2023 • 12 NOON

Location: Winter Livestock • 30425 US-50, La Junta, CO 81050

Selling:

**39 Yearling Charolais Bulls
20 Commercial Female Pairs**

Welcome

TO OUR 5TH ANNUAL BULL SALE!

This year we utilized a few more outside genetics than normal searching for that perfect outcross. I don't know if we found the "perfect" one but we found some that are real close! This year's offering has a little bit of everything. From calving ease to growth you are bound to find one to fit your operation.

As a new feature to the auction, we are going to auction off a fat steer with 100% of the proceeds going to an Ag college program. It is insanely difficult to set up a private scholarship, so this is the route we have chosen to honor our friend. The detail of this lot is at the end of the catalog, don't forget to check it out.

Why do we DNA test all the bulls? We utilize this technology to verify parentage and enhance the EPD's. Genomic enhanced EPD's are the equivalent of having 25 progeny reported for each individual sire thus increasing the accuracy of the numbers.

Registration papers are available for online transfer. If you want a copy of your purchases papers or to have them transferred, please email the lot number(s), your AICA breeder's number, and your address to horsecreekcharolais@gmail.com.

Thank you to all our previous buyers for believing in our program. Your support is appreciated. If this is your first time, thank you for stopping by and giving us the opportunity to provide you with your bull power.

If you have any questions about the bulls, please don't hesitate to give us a call or stop by and check the bulls out.

SINCERELY,

Chris and Malinda Matthew

Sale Information

CONTACT

HORSE CREEK CHAROLAIS:

Horse Creek Charolais
31213 County Road MM | La Junta, CO 81050
Chris 719-468-8100
Headquarters 719-853-6529
www.horsecreekcharolais.com

SALE LOCATION:

Winter Livestock
30425 US-50 | La Junta, CO 81050
Phone: 719-384-4491

ONLINE BIDDING:

Online bidding and viewing will available through www.cattleusa.com

SALE DAY PHONES:

Chris: 719-468-8100
Malinda: 719-980-2852
Winter Livestock: 719-384-4491

ABSENTEE BIDS:

If you cannot be with us sale day, we will handle any bids in confidence. Call any of our sale day representatives. We will guarantee your bull to meet your satisfaction when buying sight unseen.

ANNOUNCEMENTS:

Announcements from the auction block on sale day take precedence over information in this catalog.

PREVIEW:

Bulls are available for preview at any time at the headquarters until two days before the sale. On Sunday the bulls will be hauled to Winter Livestock and will be available for viewing that afternoon and through sale day. The heifer pairs will arrive the day before the sale.

FIRST YEAR GUARANTEE:

All bulls are guaranteed for 90 days, starting on sale day for soundness. If a replacement bull is not available, credit will be issued at the next annual sale. All claims for replacements need to be made by September of the current year. All bulls are guaranteed to be breeders; however, no guarantee is given that the semen collected from a bull will freeze. All bulls have passed a breeding soundness exam prior to the sale. Scrotal Measurements will be available on sale day.

FREE DELIVERY WITHIN 300 MILES:

Any bull that is not picked up the day of the sale will be taken back to our facility at no additional cost until delivery can be arranged. Every effort will be made to deliver bulls shortly after the sale.

HERD HEALTH:

All Cattle have been double vaccinated against IBR, BVD type 1 & 2, BRSV, PI3, Pasteurella and Vibrio/Lepto. All cattle can be given interstate health papers the day of the sale. All females have been Bangs Vaccinated. Any bulls going to states that require trich tests on virgin bulls will be completed before delivery.

NUTRITION:

Bulls are fed a high roughage growing ration with the intent of gaining 2 pounds a day. They are never pushed to gain.

AVERAGE DAILY GAINS (ADG):

ADG is the measurement of the average daily gain from weaning to yearling. Performance gain data is for in herd comparison only. All bulls have been feed as one group and subject to identical environmental conditions.

GENOMIC-ENHANCED EPD'S (GE-EPD):

Genomic, or DNA, test results are used enhance predictability and to achieve more accuracy on EPDs for younger animals. DNA technology along with pedigree, performance and progeny information is used in the calculation and reporting of EPD's. All Horse Creek Charolais Bulls have been DNA tested.

REGISTRATION PAPERS:

All purebred bulls are registered with the American International Charolais Association. Registration papers are available **by request only**.

AVERAGE NON-PARENT EPD AS OF JANUARY 2023:

CE	BW	WW	YW	MILK	TSI
5.8	-0.3	58	105	23	248.28

HORSE CREEK BULLS AVERAGE EPD:

CE	BW	WW	YW	MILK	TSI
9.67	-1.80	59	108	23.53	251.10

USING EPDS FOR SELECTION

Expected Progeny Differences (EPD) is a prediction of how future calves of a bull are expected to perform compared to other bulls in the breed. The EPD itself does not imply "good" or "bad" performance, but rather the EPD gives a prediction of the average difference to expect in the performance of a bull's calves compared to other bulls in the same breed. The EPD is reported as a plus or minus value in the unit which the trait is measured.

CALVING EASE DIRECT (CE) is based on calving ease scores and birth weights. More positive EPDs are favorable and indicate easier calving. The EPD for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at 2 years of age.

BIRTH WEIGHT EPD (BW) The expected difference in average birth weight (pounds) of progeny. Birth weight reflects prenatal growth.

WEANING WEIGHT EPD (WW) The expected difference in average weaning weight of calves expressed in pounds. This EPD reflects the genetic influence on pre-weaning growth rate.

YEARLING WEIGHT EPD (YW) The expected difference in average yearling weight of calves expressed in pounds. The evaluation reflects genetic influence on both pre-weaning and post-weaning growth rate. It is the best estimate of total growth.

MATERNAL MILK EPD (MILK) The genetic ability of a sire's or dam's daughters to express in pounds of weaning weight in her calves due to her maternal ability through mothering instinct and milk..

TERMINAL SIRE INDEX (TSI) is a formal method of combing epds for bwt, wwt, ywt, and all carcass epds into one single value. The tsi represents a dollar index per terminal progeny produced for a bull in the aica database, ranking them for profit potential. This dollar index is to be interpreted much like single trait epd. For example, if sire a's index is \$191.66 And sire b's index is \$200.00, Then we would expect sire b's offspring to average \$8.34 More net return (\$200.00 Minus \$191.66) Than sire a's offspring.

FEMALES:

All females have had all their calfhooD vaccinations and are open, ready to breed. Calves are tagged to match the cows and have had one dose of 8-way, IBR, BVD type 1 & 2, BRSV, PI3, and Pasteurella. All bull calves have been castrated. We have done all the work, all that is left is to put your brand on them and turn the bull in. To be sold in groups of 10 pairs.

LOT A & B:

20 FIRST CALF HEIFER PAIRS

This is a gate cut from the heart of our commercial replacement program. The calves are AI sired by OW Maximizer 3041 PLD and cleaned up with Maximizer sons. Calves born in January and February.

LOT C:

WAGYU-CHAROLAIS CROSS FAT

The proceeds of this lot are pledged to be donated to a College Ag Program of our choice. This lot is 1 fat steer or heifer that should be finished in June with an appointment for processing at Blue Ribbon Processing in Fowler, CO. Buyer pays all processing fees. We will continue to feed the calf and deliver it for processing in Fowler after the sale. Buyer can choose to take possession on sale day.
